

REMARKS

The above amendments to the specification are being requested to correct a labeling inconsistency between the specification and submitted drawings. Fig. 22 in the brief description of drawings has been amended to refer to figures 22A, 22B and 22C, which are the labels used in the drawings of the present application. Applicant submits that the amended specification adds no new matter to the present application.

The above amendment to claims 10, 14 and 27 are being requested in order to correct obvious typographical and spelling errors. Applicants submit that amended claims 10, 14 and 27 add no new matter to the present application and are supported by disclosures in the specification.

In view of the above, each of the presently pending claims in this application is believed to be in immediate condition for allowance. Accordingly, the Examiner is respectfully requested to pass this application to issue.

Dated: August 25, 2003

Respectfully submitted,

By
